+44 7552 749 955  
London, United Kingdom

## Technical Skills

- React, JavaScript, Typescript, Remix/Next.js, Node.js, API's, Git, cloud-services, Jira.
- Html, Tailwind/CSS, Python, Vite.js, SQL.
- Adobe creative suite: Photoshop, InDesign, Illustrator. Figma.

## Education and qualification

**Arden University** - Graphic Design BA (Hons)

2020 - 2023

**Mercaz Hatorah College**, Israel - Studying Talmudic law and ethics

2016 - 2021

**Hasmonean High School** - A-Level: Maths B, Geography B, and Biblical Hebrew C.

2009 - 2016

GCSE's: 11 - grades: 8A & 4A\*

## Experience

### Freelance Developer - Self

January 2022 - present

- Designing and building the company website and several client websites with custom code.
- Started off using **Html, css & Javascript** progressing onto using **Remix/Vite, React** and **tailwindcss**, & **typescript** to streamline the dev process.
- Use of **Git** and **Github** for version control and code storage
- Implementation of **REST APIs** for further functionalities. Deployment with **Vercel**.
- **Client: suziwinecoaching.com** (September - November 2023)
- Full-stack application for a lifecoach client. Designed the UI with Adobe InDesign, then created a Remix/react app with TailwindCSS, RadixUI and HeadlessUI.
- Includes a modal with a post method API request to 'Sender' email marketing software, and an email api integrated with 'Resend' to send emails with user info.

### AWS Certified Cloud Practitioner

April 2023

- Took this qualification to demonstrate skills and understanding of **cloud service providers**, subsequently using **AWS** in role at PE Safe to spin-up virtual machines, configure users, VPC's, security groups, routing, Elastic IP's, launch templates etc.

### Engineer - PE safe (IT Consultancy)

March 2022 - present

- Web development using **WordPress, HTML/CSS, Javascript, typescript, React** and some **PHP** to build, fix and maintain client websites.
- Using versioning with **Git** and **GitHub/GitLab**, and basic bash commands with **linux** distributions to work alongside other developers.
- Dabbled in **Figma** and experienced with **Jira**.
- Further work involving cloud platforms (Azure, GCP & AWS), engineering with tools such as **docker, terraform, Kubernetes, Jenkins**, and applying best practices to help businesses reduce security vulnerabilities.
- Researched and reviewed GCP KMS config for a financial client, producing a comprehensive document covering basics of encryption and proper practices around KEKs and DEK's.

## Personal Projects

### Drawnbyyehudah.com

A Remix/React+TailwindCSS app built for the purpose of selling my art. I used the resend api to allow users to use a form to send a custom message and file to me via email.

### Portfolio site: yd-portfolio-fawn.vercel.app

A Next.js/React app used to display my portfolio of work and my UI design skills, using tailwind and css keyframes for animation, as well as RadixUI, MaterialUI, Framer-Motion and Swiper. Deployed with vercel.

## Hobbies & Interests

- Music, art, football, economics & psychology, UI/UX trends, graphic design and 3d design
- Volunteering at Gift, Shabbat walk & Ezra , fundraising for charities
